

**Kiewit Dufferin Midtown Partnership**  
 **Hwy 417 Rapid Bridge Replacement**  
 **MTO Project #2020-4075**

---

**Notice of Construction Start**

**Distribution Date: May 21, 2021**

In coordination with the Ministry of Transportation and the City of Ottawa, the Kiewit Dufferin Midtown Partnership (KDMP) will be commencing work on the Highway 417 Rapid Bridge Replacement (RBR) project on May 28<sup>th</sup>, 2021. This five-year project will involve the rapid demolition and replacement of 5 bridges, each of which is done in a single weekend. The project will also incorporate the replacement of Noise Barrier wall along the Highway 417 and various other improvements to the Highway and surrounding city streets. To facilitate this work, KDMP will be required to implement traffic control staging on Highway 417 and City streets between Island Park Drive and Kent Street. It is KDMPs intent to keep an open and upfront communication channel with all residents and business owners. To that end, further notices will be distributed throughout the course of the project which will provide updates regarding any specific closures and/or other impacts that may affect you directly.

**WHEN:** From May 28<sup>th</sup>, 2021 to November 28th, 2025

**WHY:** To facilitate the replacement of bridge structures at Preston St., Rochester St., Booth St., Bronson Ave., and Percy St. along the Highway 417 through use of the Rapid Bridge Replacement construction methods as well as repair and update existing infrastructure.

**WHERE:** Over the course of the project, work will be ongoing in the following locations:

- Highway 417 Eastbound from Island Park Drive to Kent Street
- Highway 417 Westbound Kent Street to Island park Drive
- On City streets within approximately 50m North and South of the Highway Right of Way

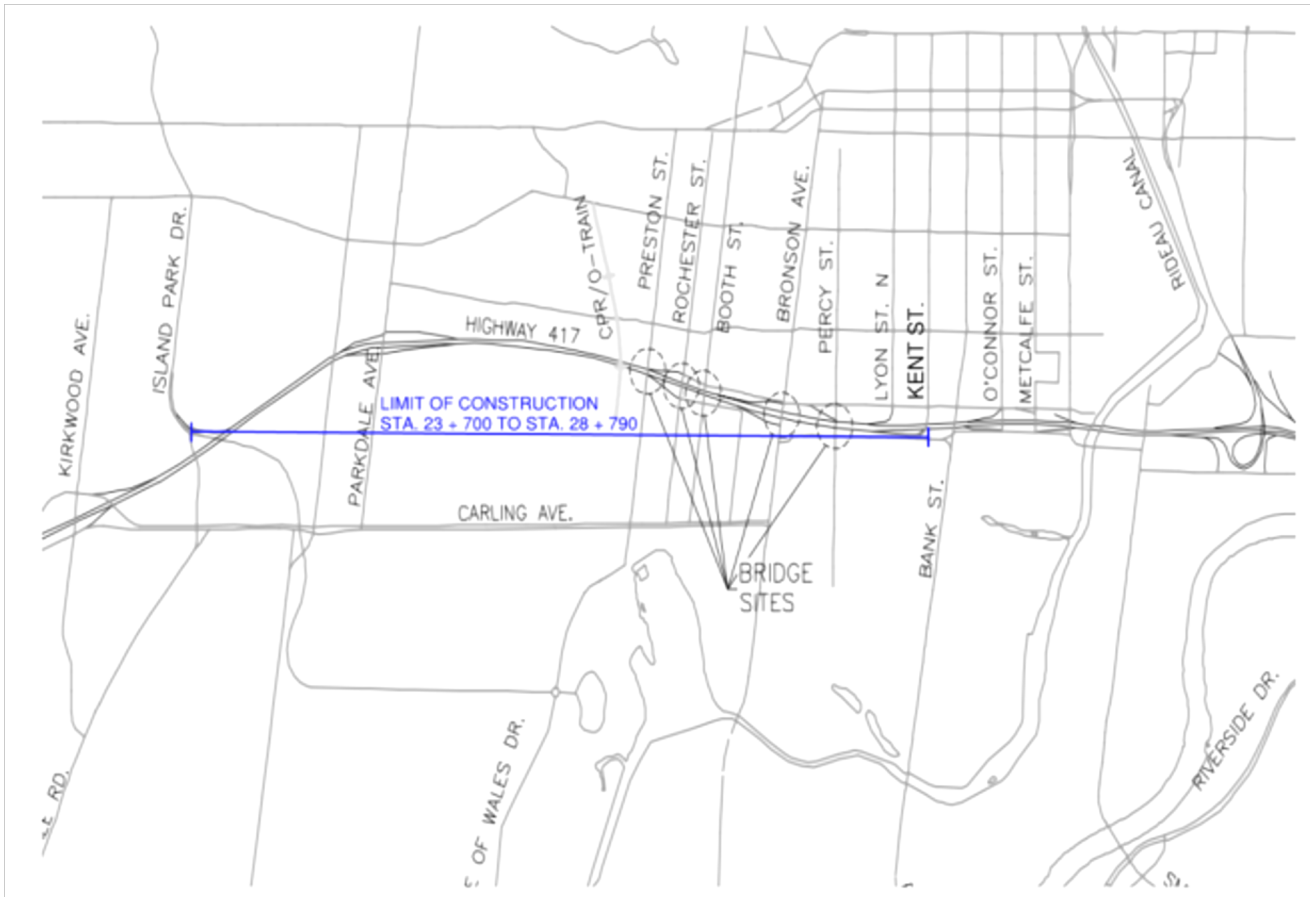

**WHAT:** The project scope includes but is not limited to:

- Civil work including excavation, drainage and grading work
- Removal and installation of new noise barrier wall
- Removal and construction of new retaining walls
- Bridge structure removal and replacement
- Landscaping
- Building Demolition (458 Catherine Street)
- Asphalt Paving on Highway 417 and on local city streets
- Barrier Wall Replacement
- Electrical Improvements
